Rounds

Round 1 - Swap Major Core
Round 2 - Major Elective Bidding
Round 3 - Drop Major Elective Round
Round 4 - CCC and UWE Bidding
Round 5 - Swap Major Core
Round 6 - CCC and UWE Bidding
Round 7 - Major Elective Waitlist
Round 8 - CCC and UWE Waitlist
Round 9 - Add/Drop
Round 10 - 2nd Half CCC Bidding
Round 11 - 2nd Half CCC Waitlist
Round 12 - 2nd Half CCC Add/Drop

Tie-Breaker Logic

A unique tie-breaker is generated for each Student + Course + Round combination.

Used when: Bids are equal

★ Lower tie-breaker = higher priority.

S001 → AI101 → Tie-breaker = 122345
S002 → AI101 → Tie-breaker = 274563
S003 → AI101 → Tie-breaker = 113245

If all three bid 150 points for AI101, the allocation order would be S003 → S001 → S002 based on the tie-breaker.

Net Credits Logic

Example:

Credit Level	Minimum	Maximum	
Graduation	90	120	
Semester 1	18	25	9 credits Pre-enrolled (Major Core)
Major Electives	40	50	

Student's Current Position

- Assume the student is participating in the Major Elective Bidding Round.
- The student has already pre-enrolled for 9 credits of Major Core courses in the current semester.
- Therefore:
 - Semester credits already completed = 9
 - Semester remaining requirement = 16

Calculate the Remaining Credits at Each Level

Level	Required / Limit	Credits Already Accounted	Remaining
Graduation	120	9	111
Semester	25	9	16
Major Elective	50	0	50

Req = MIN(111, 16, 50)

Req = 16 credits

Maximum Credits Student Can Bid (Net Credits)

★ Maximum Bid Credits (Net) = $\text{Req} \times 2 = 16 \times 2 = 32$ credits

Handling Course Clashes

Course	Credits
C1	3
C2	4

$\text{MAX}(3, 4) = 4$ credits

Student's credit consumption for that clashing group is 4 credits, not 7, which is counted towards the net credits.

★ The same net credit calculation is applicable for CCC and UWE, respectively

Round 1 - Swap Major Core

v1.0.0

Initiate a Swap Request

- Raise a Swap Request to some other Course Group(s)
 - Preferences are taken for each requested Course Group
 - The requested Course Group cannot clash with other Pre-enrolled Course Groups
 - Only one swap request is allowed
 - Request is taken irrespective of availability
- ★ • For each Swap Request, a Tie Breaker is generated (Student + Course + Round combination)
- For every available seat in the request course group, the student with the lower tie breaker number is preferred

Add a Major Elective to Consideration Set

- Cannot clash with pre-enrolled courses
- Can clash with at most one other Course in the Consideration Set
- Prerequisite needs to be satisfied

- Should not be part of the Negative List of already confirmed courses
- Student is allowed to bid for twice the available net credit limit.
- Priorities are auto-assigned to the courses based on selection (this can be changed)
- Course Groups can conflict within course, and Preferences are to be provided for each Course Group
- Students can: Increase or decrease bid

The screenshot shows the SHIV NADAR UNIVERSITY bidding interface. A modal titled "Add Major Elective - Big Data Analytics" is open. It features a "Enter Bid Points" field with a value of 10. Below this, there are two sections for "Select Component Combination Groups". The first section shows a combination of LEC1, TUC1, and PRAC1, which is currently unselected. The second section shows a combination of LEC2, TUC2, and PRAC2, which is selected. A red warning message indicates a clash: "PRAC1 (Tue 05:00 PM-06:00 PM) clashes with: Database Systems, LEC2 | TUC2 | PRAC2 → PRAC2 (Tue 05:00 PM-06:00 PM)". The interface also displays a table of available courses with columns for S.No, Code, Course Name, Credits, and Allotted Group. The background shows a sidebar with "Bidding", "Course Bidding", "Activity Log", and "Bid Ledger" options, and a main area with a table of offerings and a "Bids" section.

View Key Details

- Course Level: Total bidders, Your bid value, Priority
- Course Group Level: Total bidders, Seats Available, Preference

Edit Course & Bid

- Students can:
 - Modify combinations
 - Change preferences
 - Update bid points
- Allowed throughout the round

Withdraw a Course

- Students can: Withdraw from consideration set (No restrictions to withdraw)
- After withdrawal: Can re-add from available list
- Allowed throughout the round

v1.0.0

Add a CCC/UWE Course to Consideration Set

- Cannot clash with pre-enrolled courses and confirmed major elective courses
- Can clash with at most one other Course in the Consideration Set (UWE or CCC)
- Prerequisite needs to be satisfied
- Should not be part of the Negative List of already confirmed courses
- Student is allowed to bid for twice the available net credit limit.
- Priorities are auto-assigned to the courses based on selection (this can be changed)
- Course Groups can conflict within a course, and Preferences are to be provided for each Course Group
- Students can: Increase or decrease bid

Initiate a Swap Request

- Raise a Swap Request to some other Course Group(s)
 - Preferences are taken for each requested Course Group
 - The requested Course Group cannot clash with other Pre-enrolled Course Groups and Confirmed Courses (Major Electives, CCC, UWE)
 - Only one swap request is allowed
 - Request is taken irrespective of availability

- ★ • For each Swap Request, a Tie Breaker is generated (Student + Course + Round combination)
- For every available seat in the request course group, the student with the lower tie breaker number is preferred

v1.0.0

Add a CCC/UWE Course to Consideration Set

- Cannot clash with pre-enrolled courses and confirmed major elective, CCC, UWE courses
- Can clash with at most one other Course in the Consideration Set (UWE or CCC)
- Prerequisite needs to be satisfied
- Should not be part of the Negative List of already confirmed courses
- Student is allowed to bid for twice the available net credit limit.
- Priorities are auto-assigned to the courses based on selection (this can be changed)
- Course Groups can conflict within a course, and Preferences are to be provided for each Course Group
- Students can: Increase or decrease bid

Add CCC/UWE Course

- Course cannot clash with pre-enrolled courses
- Course can clash with Confirmed Courses (ME/CCC/UWE) and with Consideration Set (CCC or UWE)
- Prerequisite needs to be satisfied
- Should not be part of Negative List of Previous Cycles Confirmed courses
- Priorities are auto-assigned to the courses based on selection (this can be changed)
- Course Groups can be added irrespective of active seat availability and conflict within a course. Preferences are to be provided for each Course Group.
- Students can: Increase or decrease bid

Swap Processing

- Vacant seat – The course already has an empty seat.
- Mutual swap – Another student's successful swap creates a seat in the course.

Example

Combination	Available Seats
AI - L1P1T1	1
AI - L2P2T2	0

Scenario 1			
Student	Initial Combination	Requested Combination	Tie-Breaker
S001	AI - L2P2T2	AI - L1P1T1	254563
S002	AI - L2P2T2	AI - L1P1T1	123456
S003	AI - L2P2T2	AI - L1P1T1	153453

Student	Tie-Breaker	Result
S002	123456	Success

S003	153453	Failed
S001	254563	Failed

Scenario 2			
Student	Initial Combination	Requested Combination	Tie-Breaker
S001	AI - L2P2T2	AI - L1P1T1	254563
S002	AI - L2P2T2	AI - L1P1T1	123456
S003	AI - L2P2T2	AI - L1P1T1	153453
S004	AI - L1P1T1	AI - L2P2T2	263453

Student	Tie-Breaker	Result	
S002	123456	Success	Vacant Seat
S003	153453	Success	Mutual Swap
S001	254563	Failed	
S004	263453	Success	Mutual Swap

Bidding Processing

Students are ranked based on:

- Higher Bid Points are preferred
- Lower Tie-Breaker when Bid Points are equal.

Bid Points & Tie-Breaker

Major Elective – Finance L1T1P1 has 2 seats.

Student	Bid Points	Tie-Breaker	Result
S001	800	253456	Confirmed
S002	700	403456	Confirmed
S003	700	653456	Unconfirmed
S004	600	103456	Unconfirmed

Multiple Course Groups Selected

 Outline

Student S001 preferred 3 course groups in the course, and winning all the course groups during the processing, the most preferred winning group is allotted.

Preference	Course Group	Result
1	L1T1P1	Confirmed
2	L2T1P1	Unconfirmed
3	L3T3P3	Unconfirmed

Course Clash

- Student wins two Major Electives clashing with each other
- The higher priority winning course is allotted.

Course	Priority	Lecture Timing	Processing	Result
Finance	1	10:00–11:00	Winning	Confirmed
Marketing	2	10:00–11:00	Winning	Unconfirmed

Negative List Clash

- Suppose a student has:
 - Finance → Winning
 - Marketing → Winning
- Finance and Marketing are on the Negative List
- The higher-priority winning course is allotted.

Course	Winning	Priority	Final Result
Finance	Yes	1	Confirmed
Marketing	Yes	2	Unconfirmed

How is Clearing Price Determined?

★ Clearing Price(CP) is determined at a Course Group level

1. Rule 1 – All seats are allotted (Demand ≥ Supply)

Finance Course Group → 3 seats

Student	Bid Points	Result	Refund
---------	------------	--------	--------

S001	900	Confirmed	250
S002	800	Confirmed	150
S003	650	Confirmed	0
CP = 650			

2. Rule 2 – Seat remains available (Demand < Supply)

Suppose Finance has 3 seats, but only 2 students placed bids:

Student	Bid Points	Result	Refund
S001	900	Confirmed	900
S002	800	Confirmed	800
Seat 3	—	Available	
CP = 0			

Post Processing – Points Deduction & Refund

Bid Points – Clearing Price = Refunded Points

Example:

- Student's bid = 900
- Clearing Price = 650
- $900 - 650 = 250$ points refunded
- The student pays 650 points and receives 250 points back.

Losing Student:

- If the student loses the bid
- 100% of the bid points are refunded.
- Bid = 700
- Result = Losing
- 700 points → Fully refunded

Waitlist Processing

Students are ranked based on:

- Higher Bid Points are preferred
- Lower Tie-Breaker when Bid Points are equal

Example

Finance – L1P1T1 has 2 seats.

Student	Bid Points	Tie-Breaker	Result
S001	900	257645	Confirmed
S002	800	404567	Confirmed
S003	800	654567	Waitlist 1
S004	700	154567	Waitlist 2

Waitlist is Generated Separately for Each Course Group

Course Group	Seats	Confirmed	Waitlist
Finance – L1P1T1	2	S001, S002	S003, S004
Finance – L2P2T2	2	S005, S006	S007
Finance – L3P3T3	1	S008	S009, S010

Student Winning Multiple Course Groups within a course

- The course group in which the student is getting a confirmed seat is allotted (Winning > Waitlist) – Waitlist not generated for other course groups.
- In case the student is winning in two course groups, the most preferred group is allotted – Waitlist not generated for other course groups

Preference	Course Group	Processing
1	Finance – L1P1T1	Waitlist
2	Finance – L2P2T2	Winning
3	Finance – L3P3T3	Winning

Course Group	Result
L1P1T1	Waitlist Not Generated
L2P2T2	Confirmed
L3P3T3	Waitlist Not Generated

Student Does Not Win Any Course Group within a course

In case the student is not winning any course group, a waitlist sequence is generated for all course groups.

Preference	Course Group	Result	
1	Finance – L1P1T1	Waitlist	WL-2
2	Finance – L2P2T2	Waitlist	WL-3
3	Finance – L3P3T3	Waitlist	WL-5

Waitlist positions are generated for all eligible selected Course Groups.

Clashing Courses

In case of clashing courses selected and both winning, the higher priority winning course is allotted (waitlist will be generated for the other course)

Course Group	Processing	Priority	Result
Finance – L1P1T1	Winning	1	Confirmed
Marketing – L2P2T2	Winning	2	Waitlisted

Negative List Clash

In case of a negative list clash, the student is winning both; the higher-priority course is allotted (waitlist will be generated for the other course)

Course Group	Processing	Priority	Result
Finance – L1P1T1	Winning	1	Confirmed
Marketing – L2P2T2	Winning	2	Waitlisted

Clashing With an Already Confirmed Course

Course	Priority	Lecture Timing	Processing	Result
Operations	1	10:00–11:00	-	Confirmed in Major Elective Bidding
Marketing	2	10:00–11:00	Winning	Waitlisted

- Even if Marketing has available seats and the student has sufficient bid points:

- Marketing → Waitlist
- The student does not get a confirmed seat because it clashes with an already confirmed course.
- Therefore, a waitlist can be generated even when seats are available.

Student Exceeds Credit Limit

- Even if:
 - Seats are available
 - Student has placed bid points
 - Student has sufficient bid points
 - Student has a favourable Tie-Breaker
- The student is not eligible for confirmation as the student is exceeding the credit limit.
- Therefore:
 - Finance → Waitlist
 - Credit eligibility is checked before final confirmation.

How is Clearing Price Determined?

★ Clearing Price(CP) is determined at a Course Group level

1. Rule 1 – All seats are allotted ($\text{Demand} \geq \text{Supply}$)

Finance Course Group → 3 seats

Student	Bid Points	Result	Refund
S001	900	Confirmed	250
S002	800	Confirmed	150
S003	650	Confirmed	0
CP = 650			

2. Rule 2 – Seat remains available ($\text{Demand} < \text{Supply}$)

Suppose Finance has 3 seats, but only 2 students placed bids:

Student	Bid Points	Result	Refund
S001	900	Confirmed	900
S002	800	Confirmed	800

Seat 3	—	Available	
CP = 0			

★ For the Waitlisted Courses, Bid Points are reserved, not refunded.
